3. Arrange the stars in the pattern of the Big Dipper on scarf
4. Follow instruction for transfer paper to adhere stars to scarf

THE BIG DIPPER ACTIVITY

Long ago people used the stars to navigate their travels. They would connect the stars make shapes to remember their location.

These star shapes are known as constellations. The Big Dipper is located in the Great Bear constellation. The North Star, a bright star in the night sky, is centered above the north pole of the earth and is located in the Little Bear constellation.
